COLUMBIA LETTER

Columbia, February 24.—The legislature reached final adjournment on Saturday afternoon at 5 o'clock, when there were not exceeding twenty-five members of both houses present.

The total result of the session is the acts and 35 joint resolutions. Most of these are of a local nature. The bill prohibiting "pools, trusts and monopolies" was finally passed. A list of the acts and joint resolutions by their authors will be printed in a subsequent issue.

The time for the adjournment was without the usual pomp and circumstance. The list of members was announced by the Governor at 3 o'clock.

Mr. Dominick's bill to amend the charter of the Newberry School District was passed. The bill was introduced by Mr. Dominick and was passed by a vote of 10 to 4. The bill was introduced by Mr. Dominick and was passed by a vote of 10 to 4. The bill was introduced by Mr. Dominick and was passed by a vote of 10 to 4.

The following amendment, is in the bill relating to the time for the holding of the courts in the seventh circuit and relates to Newberry:

The Court of General Sessions at Newberry for the County of Newberry on the second Monday after the fourth Monday in January, the first Monday after the fourth Monday in July, and the second Monday after the third Monday in October, and the Court of Common Pleas at the same place on the third Monday after the fourth Monday in January, the third Monday in July and the third Monday after the third Monday in October. Provided, however, that the provisions of Section 27 of the Code of Civil Procedure shall not apply to the Courts of Newberry County.

The following is a short Act which may interest some of the readers of The Herald and News:

Section 1. That all products of the farm of this State may be sold in any town or city by the producer of said product or his agent, without said producer being required to pay license to make such sale. Provided, said producer or agent is not engaged in selling the produce of other persons. Section 2. That all Acts or parts of Acts inconsistent with this Act be, and the same are hereby repealed.

The incident in which Mr. Dominick figured in the closing of the session in regard to the beer dispensary is given from the News and Courier's report in another column. There is more row made over this incident than it seems to me the facts warrant. I do not mean by this to say that I approve such legislation and have time and again reverted to the matter of rushing legislation through in the closing hours of the session. There has not, however, since I have been observing legislation, been a session when some new legislation was not gotten through by free conference committee reports. I do not think it is mainly for the other members of the committee to state that they did not know what was in the report when they signed it. It was their business to know and Mr. Dominick has explained it to them. It could not have been kept secret because these reports are always read in each house. Besides at the last session I remember that the bill to establish distilleries in cities of 20,000 or over was railroaded through in the same way only it was hooked on to a liquor bill which came up in regard to some local matter in Pickens County. This same beer privilege bill was fastened to the same bill last year and went through by free conference committee report, but it was not worded so as to give the authority intended. In this case the difference is Mr. Dominick and his free conference committee hooked the beer dispensary amendment to a bill relating to working the roads in Orangeburg County which was not at all germane to the subject of beer dispensaries or the sale of liquor and it virtually made a new law on another and entirely different subject. The strange part to me is that the other members of the committee appear so innocent of what was being attempted by their committee. A committee of investigation has been appointed and I think Mr. Dominick did right in demanding it. I am willing to accept Mr. Dominick's statement as to the facts in the case as true until they are proven otherwise by the investigation and I do not believe they will be. It is worthy of note also that there was a pretty full house present when the report was submitted. It should be stated that Senator Ilderton is the only member of the free conference committee who admits that he knew what was in the report and signed it with that knowledge and that it should appear strange that Mr. Dominick would read it to him if he did not to the other members of the committee.

The candidates for the various State offices are bobbing up very freely and the outlook now is for a big crop.

Four Good and Sufficient Reasons.

There are a four good and sufficient reasons why you should use "Cafin" flour.

1. Because it is the best patent flour in the market, and makes the whitest and most tender bread and most delicious cake and pastry.

2. Because it is absolutely pure, being guaranteed by the Anti-Adulteration League, the exclusive committee of bakers, and is one who discovers adulteration in a reward of \$1000.

3. Because it is made of the best selected wheat grown on Kentucky soil and is milled as much with regard to nutritive value of the flour as its color and rising qualities.

4. Because it is the only flour manufactured south of the Ohio river that is guaranteed by and bears the Anti-Adulteration League trade mark, thus insuring the consumer absolute immunity from the poisonous mineral that is used to adulterate flour.
